Ô Canada! Terre de nos aïeux,
Ton front est ceint de fleurons glorieux!

Car ton bras sait porter l'épée,
Il sait porter la croix!

ADAPTING TO A NEW CULTURE

Culture shock is a very real psychological process everyone experiences upon arrival in a new country. There are four stages of culture shock, and they affect everyone differently. The key to coping with culture shock is to understand the stages and that the feelings associated with each one are normal. The good news is that students can get past these feelings and end up having a wonderful experience.

THE HONEYMOON STAGE

When students first arrive in Canada everything that is new and different is also wonderful and interesting. This is the only stage most tourists experience because they never have to settle into

a new culture. This stage can last anywhere from a week to a month or more.

THE DISTRESS STAGE

This is the stage where the reality of being abroad for a longer period of time hits home. Cultural differences that you found interesting earlier in your stay can become taxing. You may feel confused, isolated and/or overwhelmed during this stage. This stage can be exhausting, particularly if learning English is proving a challenge as well.

THE TRANSITION STAGE

This is the most important stage to understand. During this stage, some students become angry or frustrated with Canadian life. They constantly compare it to their home culture and begin to lament the differences. Don't worry, this is normal. The key is to recognize the symptoms of this stage and not give in to them.

THE INTEGRATION STAGE

Cultural challenges and language issues begin to subside as students accept and embrace the differences that previously frustrated them. This is the stage when your study abroad

experience becomes everything you hoped it would be; you feel confident and relaxed in your community, your school and your homestay.

While it is important to be aware of the stages listed above, it is equally important to point out that not everyone goes through every stage. Some students arrive and are immediately homesick. Others never experience the frustration of the transition stage and skip quickly to the integration stage. The key is to be aware of what is happening and to remember that people are available to help you like your homestay coordinator, homestay family, school counselor, International Education school-based coordinator and our office.

AROUND THE HOME AND COMMUNITY

FAMILY INVOLVEMENT

Your homestay is your “home away from home”. We encourage you to participate in all family functions.

COQUITLAM COMMUNITY

Coquitlam is the third largest school district in British Columbia with 31,000 students in over 70 schools. The district includes the cities of Coquitlam, Port Moody and Port Coquitlam, and the villages of Belcarra and Anmore. The total population in the Tri-Cities area is 250,000 spread over 200 square kilometers.

We are only 30 minutes from downtown Vancouver by car or Sky Train. Two major universities, Simon Fraser University and the University of British Columbia, are both a short commute from Coquitlam. The world class Whistler Mountain ski resort, the host site of the 2010 Winter Olympic Games, is less than 2 hours away by car. We enjoy a mild climate with a safe environment and an affluent lifestyle. Nestled in the mountains and edged by the Pacific Ocean and Fraser River, Coquitlam truly is an ideal setting for international students with excellent year-round recreation, shopping and ethnic dining.

RECREATIONAL TEAMS & ACTIVITIES

Each school offers a variety of extra-curricular activities and clubs including drama, band, choir, yearbook, skiing, chess and athletic activities such as field hockey, mountain biking, golf, tennis, basketball, soccer, wrestling, swimming, track & field and many others as well. Students are encouraged to join in these extra-curricular activities to experience a feeling of involvement, as this is an excellent way to improve language skills in a friendly environment. There are many community sports and performing arts programs available to students within the Coquitlam School District area.

TIPS FOR STUDYING IN COQUITLAM

Don't be afraid to ask questions if you don't understand.

Teachers expect questions from students. Make sure you understand the teacher's instructions regarding any assignments. If you're quiet, that will be taken as a sign of understanding. Teachers are usually available before and after school for questions and extra help.

Be on time for class.

If you can't attend or be on time, notify your custodian so they can contact the school in advance and explain the reason. If you miss classes, see the teacher the next day to find out what was missed.

You will probably find the classes more informal in Canada.

You will also have to organize your own time since you won't be given a schedule to cover non-class time. Plan your time carefully, balance school work, English practice, and relaxation.

Hand in all assignments on the day they are due.

If you are not able to finish your assignment on time, talk to your teacher before it is due. If you miss any assignments, quizzes, or exams, see the teacher and ask if there is a way to make them up.

Organize your notes.

Keep all handouts from your teachers.

You will need to use a computer for your studies in middle and secondary schools

Bring a device to school with you every day in order to follow along in classes and access your coursework.

It is recommended you use a **laptop computer**. Tablets—especially iPads—often cannot properly function with the school programs and may end up unusable for you.

Some students find it difficult to stay focused in class when there are other distractions on their device, so please ensure you set yourself up to minimize distractions.

If you need help managing this, please ask your teacher for support. Secondary schools also have a tech centre where you can take your device if you're having challenges; they will help you solve the issue or let you know what next steps to take instead.

Please note: Schools and the International Education Program are not responsible for lost, stolen, broken or damaged devices. Please make sure to keep your device with you or securely stored.

MEDICAL COVERAGE

For more information on the Medical Services Plan (MSP) and guard.me, please visit our website.

While you are at the International Education office, you will receive your private medical insurance documents provided by **guard.me**. Medical office staff may ask for the group and policy number that is found on your Emergency Healthcare Access Card.

The claim reimbursement form will need to be completed with why you went to see the doctor, signed and then submitted to **guard.me** directly. Please include all original receipts or bills for your expenses. You may want to keep a photocopy for your records as guard.me needs the originals. Please [click here](#) to submit your claim online.

If you are studying in BC for more than 6 months, 3 months after your arrival, your medical coverage will change from **guard.me** to the provincial health insurance plan called the **Medical Services Plan (MSP)**. Your MSP card will be sent to your homestay address and will replace the guard.me card you received when you arrived at the International Education office.

If you are feeling sick with cold or flu-like symptoms (runny or stuffy nose, sneezing, coughing, fever and chills), please visit a walk-in medical clinic, pharmacy or call HealthLink BC at 811. You may also ask your homestay family or International Education Contact at your school for help. If you have a serious illness or injury, please go to the hospital or call 911. Please note, 911 is for immediate, emergency assistance only for contacting police, fire or ambulance. For non-emergency RCMP, please call 604 945 1550.

DISTRICT CODE OF CONDUCT FOR STUDENTS

POLICY 17

The Board believes it has a responsibility to establish expectations of students as part of its governance role for the District. The Board further believes that the responsibility for student discipline in school is shared among students, staff and parent/guardian.

Students have a responsibility to respect the rights and dignity of others and to become actively and productively involved in their own academic learning and social growth. Educators are responsible for establishing a positive school climate in which structure, support and encouragement assist students in developing a sense of self-discipline and responsibility. Parent/guardians are responsible for establishing a positive learning atmosphere in the home, knowing school policies and procedures, supporting the school in the enactment of these policies and procedures, and encouraging their children to understand and respect these policies and procedures. To support these aims, the Board has established a District Code of Conduct for Students, which shall be followed in all schools.

Specifically

1. The Board believes that appropriate student conduct, based on respect for oneself, respect for others, and respect for property is essential to the development of responsible citizens. To this end students are expected to:
 - 1.1. be aware of and obey all school rules
 - 1.2. attend classes punctually and regularly
 - 1.3. work cooperatively and diligently at their studies and with home assignments
 - 1.4. respect the rights of all persons within the school including peers, staff and parent/guardian
 - 1.5. respect the legitimate authority of the school staff
 - 1.6. respect the school's physical school facilities
 - 1.7. respect the diversity of our school community
 - 1.8. behave in a safe and responsible manner at all times
 - 1.9. **not** threaten, harass, bully*, intimidate or assault, in any way, any person within the school community; and
 - 1.10. **not** be in possession or under the influence of drugs and/or alcohol.
 - 1.11. Use digital devices, tools and platforms in accordance with all aspects of this code of conduct and any other district procedures governing use of digital tools
2. The Board further believes that these expectations are fostered in a positive climate in which:
 - 2.1. all students feel safe, valued and trusted, and have the opportunity to develop, assume and maintain responsibility and self-motivation
 - 2.2. there is a joint effort to learn and a feeling of mutual respect among staff, students and parent/guardian
 - 2.3. appropriate behaviour is consistently encouraged and acknowledged, thereby increasing student self-esteem and reinforcing self-control
 - 2.4. students are disciplined in a timely, fair, judicious and responsible manner, with consequences for unacceptable behaviour that take into account the student's age, maturity and special needs, if any**and
 - 2.5. on-going communication exists between staff and parent/guardians that encourages and provides increased opportunities for active and constructive parental involvement in their children's education.
3. The Superintendent will ensure that each Principal, in consultation with staff, parent/guardians and, when appropriate, students, establishes a code of conduct for their school that is consistent with the District Code of Conduct for Students and which reflects the provincial standards.
4. The Board believes that schools must not be places where discrimination is practiced or tolerated. To that end, each school code of conduct shall refer to Sections 7 and 8 of the Human Rights Code of British Columbia.
5. The school's code of conduct and a summary of the district's policies on "Code of Conduct" (Policy 17), "Violence, Intimidation and Possession of Weapons" (Policy 18) and "Suspension of Students" (Administrative Procedure 355) will be sent home annually to be acknowledged by parents/guardians and, where appropriate, students. The principal shall ensure that the school code of conduct is reviewed with students at the beginning of the school year and throughout the year as necessary.
6. Students, while attending school and school sponsored functions and activities, shall be subject to the District Code of Conduct

for Students and the school's rules of conduct and deportment established by the Principal. Students may be subject to discipline under the school and/or District Code of Conduct for any conduct which has the effect of negatively impacting the school environment, whether that conduct occurs on or off School District property, at a school sponsored function or activity, or otherwise.

7. Students registered in School District No. 43 (Coquitlam) shall not attend schools other than the school in which they are registered, without a legitimate school related purpose. Students who do so may be subject to disciplinary action by their school or the School District.
8. The Board recognizes the importance of technology for supporting learning and preparing students for an increasingly connected world. Accordingly, schools are required to provide ongoing digital literacy and citizenship programming to ensure students develop the skills to participate safely and productively in modern society. Further, each school's Code of Conduct is required to include the conditions under which personal digital devices may be used during the school day. While the Board recognizes the importance of school context in determining restrictions appropriate to support their local community, it is expected that the code of conduct address the following standards:
 1. Access to personal digital devices, such as cell phones and tablets, is expected to be restricted throughout the school day in grades K-8 and during instructional times in grades 9-12.
 2. Expectations for behaviour with respect to online activities are communicated
 3. Exceptions to restrictions are provided at the discretion of the school principal or designate where the device is:
 - a. designated as the primary learning device for a student
 - b. identified as being necessary for medical, accessibility or equity reasons
 - c. identified as useful for specific instructional activities
9. Serious breaches of conduct that threaten the safety and welfare of others may be referred directly to Level Three of the suspension process for resolution by the Student Suspension Review Committee.
10. Where a student 16 years of age or older repeatedly fails to comply with the code of conduct, rules and policies of the school, or has failed to apply him/herself to his/her studies as set out in Section 85 of the School Act, the Board is empowered to refuse further school service to the student.
11. Students are prohibited from being in possession of and/or under the influence of alcohol and/or drugs in all schools or at school sponsored functions and activities.

*** Bullying** includes but is not limited to physical or verbal intimidation, verbal harassment and online bullying, occurring on or off school property.

**** Special considerations** may apply to the imposition of consequences on a student with special needs if the student is unable to comply with this Code of Conduct.
