

Welcome to Surrey Schools!

New Secondary (Grade 8-12) Students Starting Wednesday, January 28, 2026

To ensure a smooth transition into school life in Surrey for your student, please read carefully through the following information and check your email (and junk email) regularly for important information and updates from our office.

Arrival Date

It is your responsibility to ensure you have reviewed the [latest entry requirements into Canada](#). Please inform International Education of your specific arrival date, once travel plans are confirmed. You will need to arrive in Surrey no later than **Sunday, January 25** to attend the mandatory orientation on January 26.

English Assessment/Pre-Arrival Learning, Class Schedule and the First Week of School

All students new to the Surrey Schools International Student Program are required to have their English language skills assessed online with **Vital English**. Students will be sent a link for the assessment and must complete it by their assigned date to facilitate course scheduling prior to arrival.

As part of the service provided by Vital English, students will also complete a **pre-arrival learning** course. The course has different modules designed to help students become more familiar with Canadian school, culture and customs. Please know that this course is in addition to our mandatory new student orientation on January 26.

Assessment results and course requests will be sent by our office to the student's school to create their class schedule. Please note that no specific courses are guaranteed. If students wish to make changes to their schedule, they must make an appointment with their school counsellor *after* they have arrived in Surrey (counsellor information available on all school websites).

Note – International students are not required to complete an additional registration process at their school. Check your school's website or contact your school office upon arrival regarding school start times and start-up procedures for new students.
